

Muhammad Anas

frontend developer

Summary

Motivated and skilled web developer with experience in React, Next.js, and Tailwind CSS, specializing in creating dynamic, responsive web applications. Proficient in building multi-step forms, managing state, and ensuring seamless navigation across form pages. Adept at handling data storage using local JSON servers or local storage for interactive applications. Experienced in developing custom CV templates, allowing users to choose and preview designs dynamically. Focused on delivering clean, efficient code and user-friendly interfaces.
